Hello Sarah,

You can attribute the following statement to Anthony Megliola, Base Closure Manager.

On Tuesday, 24 July, a Navy representative will brief the Alameda City Council about radiological data concerns with the former Hunters Point Naval Shipyard. We are confident the work performed by all our contractors at the former NAS Alameda is accurate and reliable. The protection of human health and the environment is our top priority. The Navy is proud of its history at NAS Alameda and excited to see it begin a new chapter in service to the community.

Thank you,
Cecily Sabedra - BRAC Environmental Coordinator

Hi Cecily,

Acting City Manager Liz Warmerdam asked me to get some additional information about your presentation on the 24th that we can share with folks over social media, given the interest in Site A. If you could send me a few lines of what you will discuss, that would be much appreciated!

Many thanks,

Sarah
